

# PROTEK 5 OPTICAL TALKSET DUAL SET NEW 2014

## Wildly Used

- © Optical Talk Set is widely used in the construction and maintenance of optical cable, optical fiber communication, and optical fiber CATV, etc.
- © Especially suitable for communication under severe atmospheric condition.

- © Imported laser components (transmitting and detecting).
- © Long-short communication switchover to adapt to different locations.
- © Automatic storage of power-off volume. Early warning of low volume.
- © Automatic turn-off, time setting range: none or 30~99mins.
- © Can be used as optical laser source.

***3WC function,  
clear sound,  
adjustable volume.***

- © According to the current situation of optical fiber communication is developed using internationally advanced technology.
- © High speech quality, large dynamic range, and easy operation.
- © Liquid crystal display. small volume, light weight, and portability.

# PROTEK OPTICAL TALKSET 2014 DUAL SET

3WC function

## Technical index

Communication mode	Full duplex communication
Identified wavelength range	800~1700nm
Wavelength	1310nm, 1550nm
Modulation system	Analogue & digital hybrid mode
Optical fiber type	Single mode (SM)
Adapter type	FC (standard) , SC, ST (optional)
Dynamic range	≥45dBm
Transmission distance	≥110km
Buzzer	1kHz
Power supply	9V Ni-MH rechargeable battery, special charge adapter
Working temperature	-10~50°C
Storage temperature	-20~70°C
Relative humidity	0~95% (frost free)
Dimensions (mm)	140×72×38
Weight	0.26kg

## Standard Configuration

- ◎ Optical Talk Set (A/B), 1 pair.
- ◎ 7.2V lithium rechargeable battery (built-in), 2 PC.
- ◎ Charger, 2 PC.
- ◎ Earphone & microphone, 2 PC.
- ◎ User 's Manual, 1 PC.
